### Learning and teaching hours

Learning and teaching hours are calculated as 100 hours per ten credits studied. For BMus students this equates to 4,800 hours over the course of four years, which is split between self-directed study and contact hours with tutors. Contact hours include performances, one-to-one tuition, larger group tuition, seminars, faculty and academic classes, directed rehearsals, masterclasses, competitions and supervised study. Rehearsal and performance contact time will vary according to each student's discipline and chosen study options. The diagram below is designed to illustrate the RCM learning experience.
